Darwin theory

Evolution theory suggests billions of unknown years. The Darwin theory was written around 1859ad as shown on this chart time line. The awakening of God's people came alive through the common language of the peoples versions of the bible, martyrs, and reformers came about. The history of life that I see in the past is a history that overshadows the Darwin theory. I have lived such a short time, just sixty years, I can see the damage that can be caused by just one theory that has thrown out the rest of history that is presented in the Bible (History Book) view.....
